FOR IMMEDIATE RELEASE

SOFTSEARCH JOINS KONECT RESELLER PARTNER PROGRAM

CALGARY, Alberta, Feb 23, 2006 – desktopsites Inc. (“desktopsites”), a rapidly emerging leader in access serverware for small and mid-size businesses, is pleased to announce the addition of SoftSearch Inc. (“SoftSearch”) to its Konect™ Reseller Partner Program. SoftSearch provides a unique software sales referral and ecommerce service based on their customers’ need to source, research and purchase specific commercial software for their business needs.

“Finding the right software can be a time consuming and expensive process for companies as over 95% of all business software is not available through regular and expected channels,” says Kathy Woolverton, President of SoftSearch. “SoftSearch enables customers to find and purchase the software they need to meet their specific business needs, saving them time, money and frustration. Our sense in reviewing the Konect solution is that its ability to publish applications will also save businesses time, money and frustration. We field inquiries on a regular basis for a software solution that companies can use to simplify their application environment. It is our belief that Konect is positioned well to answer those inquiries and we are excited to have a credible and reliable solution to recommend.”

“SoftSearch’s client list ranges from Dell to Harvard University to Westinghouse,” says Alex Bethlehem, President and CEO of desktopsites. “This list is representative of the specific need SoftSearch fulfills by providing a centralized resource for extremely valuable software solutions that may not benefit from massive marketing budgets and campaigns. In addition to the strong alignment between our two companies’ values, there is a strong mutual benefit that we expect to realize in working with the professionals at SoftSearch.”

About desktopsites

desktopsites is an emerging leader and innovator in on-demand application publishing serverware solutions for small and mid-size businesses globally. desktopsites’ Konect solution enables companies to simply and securely extend network resources and seamlessly publish applications, wherever and whenever they are needed. desktopsites was founded in 2000 and is headquartered in Calgary, Alberta, Canada. For further information visit <http://www.desktopsites.com>.

About SoftSearch

SoftSearch is dedicated to helping businesses find and purchase software to meet their specific needs to increase productivity and profit. SoftSearch was started in 1990 and introduced its first on-line searchable database in 1996. Today that database contains over 80,000 software products and has become an indispensable tool for businesses when researching and sourcing commercial software to meet their specific needs. This database is complimented with an extensive ecommerce service enabling SoftSearch to become the one-stop source for business and specialty software. For further information visit <http://www.softsearch.com>.
